

Summer, 2018

Dear Parents,

As parents, we always want to help our children during the summer months to get a head start on the upcoming school year.

In order to support student learning this summer, GGUSD has put together a variety of online resources for students from kindergarten to 12<sup>th</sup> grade in one convenient location. The variety of online resources will help your students stay on track with their learning, and to be ready for the new school year.

## WRITING SUGGESTIONS

During the summer months, we suggest you continue to minimize television viewing (unless it is educational) and have your child write in a journal every day to keep his/her writing skills sharp for the upcoming year. Have your child write letters to family members in different states or countries, express his or her feelings, write stories or poems and even summaries of the books s/he is reading. Writing is a muscle that we want to make sure stays strong during summer and is ready for school in the Fall.
